

TALKING POINTS FOR PASTORS AND LEADERS:

Network of Life has been a local partner for over **40 years**. You may know them as Women's Choice Network, a group of medical clinics providing **faith-based, life affirming medical care** to women and men making decisions about unplanned pregnancies.

The Network of Life staff and volunteers serve at **three clinics in Oakland, Monroeville, and the North Side** of Pittsburgh. These powerful little centers provide a range of **free medical services** including pregnancy testing, STD testing and treatment, ultrasound, medical consultations, and life-saving alternatives to abortion.

The Network of Life's **Wellness Journey** Program invites moms and dads to participate in childbirth and parenting classes, build mentoring relationships, and earn essential items like clothing, formula, and baby gear for up to two years. The Wellness Journey introduces families to faith in Christ in their Bible Studies and Post Abortion Healing Groups.

With every service they provide, Network of Life **invites families to choose life and choose abundant life in Christ.** We support their mission to reach young moms and dads as together we build a culture of life in Pittsburgh that defends the unborn and values every life. **Since 1985,** they've been able to document over **8,550 babies born!**

Baby Bottle Launch:

When you take home a Network of Life bottle and fill it with **cash, checks, or loose change,** you join your gift with thousands of others around the city to make an impact that literally **saves hundreds of lives each year.** Everyone in the family can participate in a small but powerful way. So, take this little bottle home, pray for this local ministry, and bring the filled bottle back and be part of what God is doing to care for moms and dads in our city.
